

Asian Cuisine

Take your favorite Asian flavors to-go!

Pactiv Evergreen has the packaging solutions you need for carry-out kung pao, on-the-go pho, takeout teriyaki, and more!

Elevate your off-premise Asian cuisines with high-quality packaging from Pactiv Evergreen.

Explore our assortment of **hinged lid containers**, perfect for appetizers, stir-fry, and noodles.

Browse our variety of **two-piece containers** for your hearty and saucy Asian dishes.

Discover durable **soup containers**, ideal for serving miso, egg drop, tom yum, and more.

Pursue our **portion cups** to pick the perfect container for sauces, sides, condiments, dips, and dressing.

We offer a range of hinged containers ideal for appetizers, entrées, and more.

Hinged lid containers

If your need performance and presentation, consider our **EarthChoice® Dual-Color Polypropylene Hinged Lid Containers**. The clear lids present food beautifully and help to prevent order mix ups. The Zip Seal™ closure provides superior leak resistance for delivery and takeout. The SmartVent™ technology allows steam to release, keeping food hot and crispy. Furthermore, they are microwave safe for end user convenience.

Microwave safe **Mineral Filled Polypropylene (MFPP) Containers** are strong, stackable, and moisture resistant so they can stand up to hearty and saucy foods. They are also made with 50% less plastic than traditional polypropylene (PP) containers. If you are looking for a great option for crispy cuisine – choose one of our vented options.

Looking for a **Compostable* Fiber Blend Container** for bánh mì or tandoori chicken? We offer PFAS-free BPI certified compostable* containers made of a sturdy fiber blend that can hold up to wet and heavy food.

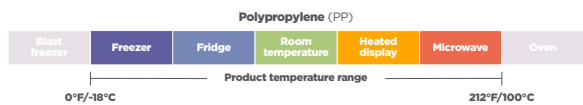

If you're seeking to enhance your café or deli with grab 'n go sales, consider our range of crystal-clear **OPS Containers**, a top choice for merchandising. These containers boast exceptional transparency, robust stackability great for cold cases, and an attractive price point.

* Commercially compostable only. Facilities may not exist in your area. Not suitable for home composting.

Two piece containers for everything from egg rolls to mochi!

Two piece containers

When you need a two piece container solution that performs and presents, **Newspring™ VERSAtainer® and DELtainers®** are always a top choice. These sturdy containers are made of heavy-gauge polypropylene. With a tight-fitting perimeter seal that provides exceptional leak resistance, so you can store and transport even the sauciest foods with confidence. Ideal for a variety of food applications, both hot and cold. Newspring™ containers can be stored in the freezer, refrigerated or microwaved and are top rack residential dishwasher safe for end user convenience.

EarthChoice® Versa2Go™ polypropylene (PP) bases are made with 20% less plastic than our Newspring™ VERSAtainer® bases, reducing fossil fuel based material usage. These two piece containers with their clear lids and black matte bases are fantastic for food presentation and delivery performance.

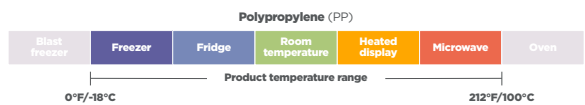

Mineral Filled Polypropylene (MFPP) Containers are suitable for both hot and cold foods, and the bases are microwave safe for a quick reheat at home for end users. The MFPP bases are made with 50% less plastic than traditional polypropylene containers.

Takeout or delivery, hot and cold foods will travel securely - looking delicious and staying fresh - in Pactiv Evergreen's all-purpose **Aluminum Containers**. These containers can be stored in freezer, refrigerated or baked in the oven. Our aluminum bases are recyclable. Recycling products gives them a second life. Check locally: may not be recyclable in your area.

Virtual Packaging Assistant

The Virtual Packaging Assistant (VPA) app can be used for all of your Food Service Packaging Solutions! It is available for download on all Apple, Android and Windows devices.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
